## QUEER

www.myspace.com/troublextroublex

...since a while quite any thing/body is queer...

### the party:

### the magazine:

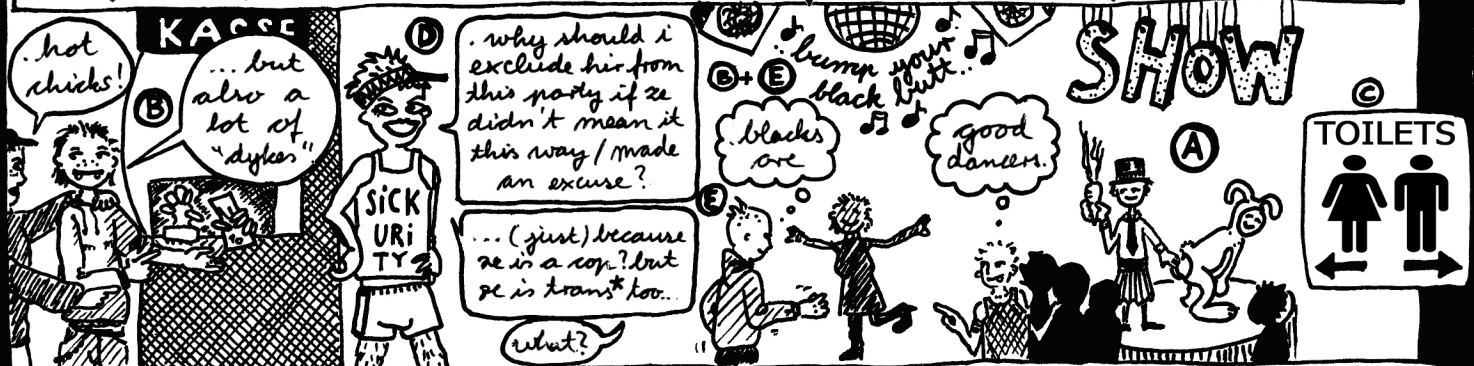

\* actually it really means "gay" and maybe a little bit of "lesbian" but in no way "trans"

### the show:

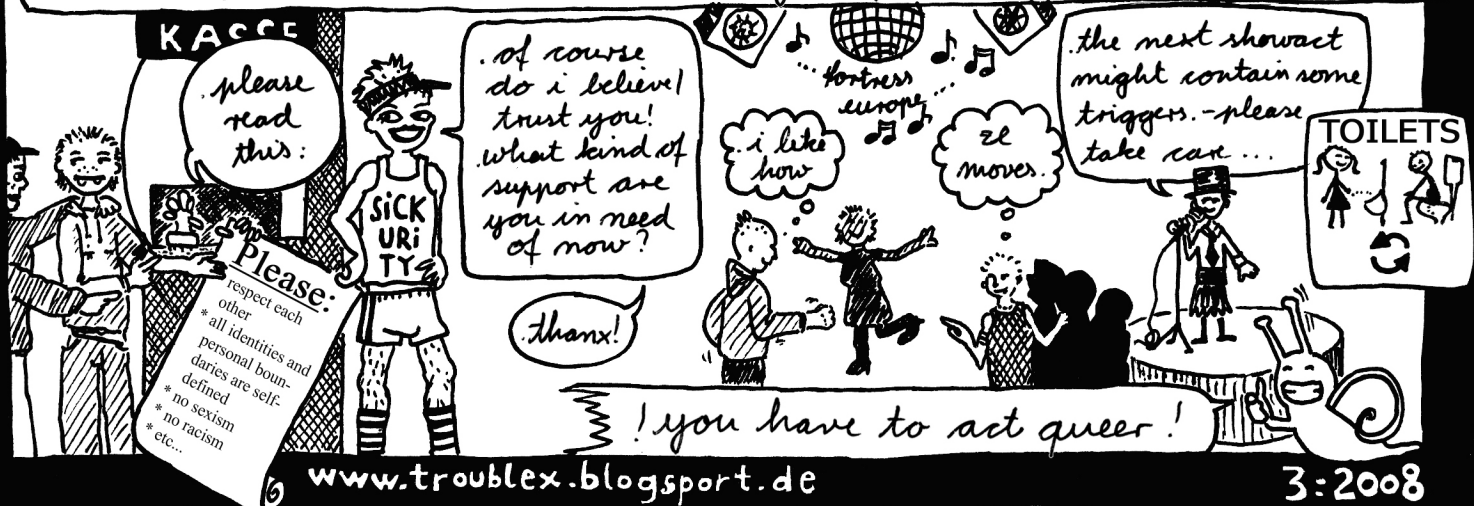

everything's fine so far... except that i personally am missing many times too often:

- (A) a feel for the (possible) personal borders of others (B) an anti-sexist claim  
(C) a deconstruction of "gender" (D) a (radical) left practice (E) "critical Whiteness"

i think, (like a friend likes to say): you can't (just) be queer -
